

The fastest way to collect trims in 4 kW

Industrial vacuum for the collection of plastic, paper or textile trims. Its suction power, its features and its size make it the right vacuum to operate in packaging areas.

Model 3507W R is equipped with a 4 kW threephase motor. It mounts a nylon filter, however specific filters for dust extraction are available. The threephase suction unit is placed under the container, the liner is spread out and completely open and all product vacuummed in is neatly compacted on the bottom, optimizing the container capacity. Stainless steel version.

- High power
- High container capacity
- Quick visual level control: plexiglass port-hole in the lid
- Silent
- No maintenance needed
- Ideal to be integrated into packaging machines
