

The fastest way to collect trims in 1,1 kW and 150 liters container

Industrial vacuum for the collection of plastic, paper or textile trims. Its suction power, its features and its size make it the right vacuum to operate in packaging areas.

Model R 155 is equipped with a 1,1 kW threephase motor and a 150 liters container. It mounts a nylon filter, however specific filters for dust extraction are available. The threephase suction unit is placed under the container, the liner is spread out and completely open and all product vacuumed in is neatly compacted on the bottom, optimizing the container capacity.

- Small
- No maintenance needed
- Silent
- Easy and quick disposal of waste material
- High capacity
- Quick visual level control: plexiglass port-hole in the lid
- Specific liner filter for fine dust available
- Stainless steel version

Resim, gerçek modelden farklılık gösterebilir.
